RE: Ban from Jenkins Independent School District Properties and Activities

Dear Ms. Jones

The Board of Education of the Jenkins Independent School District (the “Board”) remains concerned with your previous social media posts which appear to be harassment of minor students and that disrupts the educational process. The Board’s priority has been, is, and always will be the safety and well-being of all students, and the fans, visitors, and others who use the school district facilities.

However, the Board understands and genuinely appreciates your desire to be actively involved in your children’s education and to engage with their educators. Therefore, the Board is now willing to amend the current ban to contain exceptions. You may access school property:

- To drop off and/or pick up your children from school;
- To drop off and/or pick items from your children at school;
- To attend scheduled parent-teacher conferences; and
- To attend any other scheduled meetings with your children’s educators regarding their educational needs; and

This letter also serves to clarify that this ban does not prevent you from attending open meetings of the Board pursuant to KRS 61.810(1).

Again, we are appreciative of and respect your willingness to be involved in your children’s education. Our students are always our number one priority, so we want to facilitate and encourage active involvement from home as much as we can.

We look forward to your continued cooperation.

Sincerely,

Damian Johnson
Superintendent
Jenkins Independent Schools
