

SMART JUSTICE ADVOCATES

Smart Justice Advocates (SJAs) are a unified group of diverse people who work to inspire change and advance the fight for freedom and equality for all those impacted by the criminal legal system. Some of our priorities are:

- Liberation identification
- Clean slate initiative/expungement
- Voting rights
- Persistent felony offender laws
- Criminal law/penal code reform
- Second chance employment
- Addiction recovery and rehabilitation

We meet monthly to build leadership skills and understand Kentucky's political landscape. In addition, we:

- Table at events to share info and engage more people
- Present at, attend, and host conferences, convenings, panel discussions, film screenings, and more
- Collaborate with community partners
- Visit Frankfort to share our stories with legislators and testify in front of legislative committees

*"Each of us is more than the worst thing we've ever done."
- Bryan Stevenson, Equal Justice Initiative*
